**Freight Estimate on Complete System including:**

2 High Density Foam Pads	\$30
2 DDR Game Energy Metal Pads	\$100
2 Cobalt Flux School Platforms	\$120

Many groups find it beneficial to start with the foam pads. You can upgrade the equipment if you see the need. The foam pads can then be used as non-interactive practice pads (you don't connect them) or used when DDR travels outside the gym as they are easier to manage than the heavy metal pads.

Please call to discuss equipment options. Toll free 1-866-228-8443

## 1" High Density Foam Pads

Offered by CD Resources

Toll free – 1-866-228-8443

[www.digitaldanceathon.com](http://www.digitaldanceathon.com)

### Pricing

Dance Pad \$85

Freight \$10 per pad

### ***Raised Reinforced Buttons***

Durable thick inserts underneath each button so that you can feel the difference between the button and the other parts of the pad. The super sensitive no more delay technology, resulting in better performances and higher scores

### ***Super High Density 1" Foam Insert for Exceptional Comfort***

Dance Pads feature super high density true 1" foam insert that will keep up with your fastest moves. This dense cushion insert gives you the perfect balance between fast reaction times and comfort, so you can play longer and get higher scores

### ***Arcade-sized Circuitry for Higher Scores***

Dance Pads' buttons and sensors are arcade-sized for increased sensitivity, so you can achieve consistency in your game when you're playing at the arcade or at home with the soft pads

### ***Non-slip bottom to prevent the pad from sliding***

***Energy Series*** Dance Pads use Non-slip foam cushion bottom that prevent the pads from moving around
